

Date: April 15th, 2026

Dear Valued InSinkEerator Partner,

As the leading commercial manufacturer of food waste disposers, we are committed to providing high-quality products, exceptional customer service, and reliable solutions. We deeply value your business and our ongoing partnership.

InSinkEerator is actively managing costs and seeking savings; however, rising material and external costs beyond our control have made it necessary to implement a price adjustment. We sincerely appreciate your understanding and support during this time.

Effective **June 15th**, we will implement a **4%** price increase across all our product lines, please see attached new price sheet for your reference.

The following conditions will apply:

- All orders currently "in-house" must be shipped on or before June 15th 2026, to avoid the new price increase (60-day price protection).
- All orders received and/or shipped on or after June 15th 2026, will be subject to the new pricing

Please feel free to reach out to me directly with any questions you may have.

Thank you for your continued support.

Bob Thielen
